SKILLS

React, Redux, Javascript, Python, HTML, CSS, SQL

PROJECTS

RaceR (JavaScript, Redux, ReactJS, SQLAlchemy, PostgreSQL, CSS, HTML)

[live](#) | [github](#)

A Flickr inspired application to connect like-minded car enthusiasts and inspire new creative builds

- Composed a database schema and frontend implementation rendering users comments and likes through the use of aliased tables
- Utilized AWS S3 to facilitate user image uploads to be displayed in custom React components allowing users to create new photos for their builds

Chatter (Python, Flask, ReactJS, Docker,)

[live](#) | [github](#)

A slack inspired application with implementation of WebSockets to increase efficiency and lessen server load

- Engineered a search system to filter information through specific keywords and users
- Integration of websockets to provide low overhead communication between server and the client
- Leveraged project management experience to guide the teams task prioritization in order to compensate for the loss of time due to conflicting member time zone conflicts

LuxBnB (Python, Flask, ReactJS, Docker)

[live](#) | [github](#)

An airbnb inspired application aimed to allow user to find, favorite, and review hosted spots

- Implemented front to back user authentication utilizing Flask-Login and ReactJS
- Built a responsive rating system allowing the user to see it throughout the application

EXPERIENCE

Assistant Manager

Big T's Seafood

Oct 2017 - June 2022

- Assisted customers in order selection, recommended specific menu items, and ensured prompt, accurate service.
- Cultivated long term high performing team of employees through engagement initiatives to improve work efficiency and customer service
- Controlled inventory by creating Excel spreadsheet for food and beverages. Maintained the calculations of food and alcohol cost percentages, and working profits and loss reports

Valet Driver

Corinthian International Parking Services

Jan 2016 - Jan 2017

- Returned guests' vehicles in a safe, timely and friendly manner while following safe driving practices and obeying traffic laws
- Parked and retrieved guests vehicles quickly to avoid long wait times and keep workflows running efficiently
- Processed all point of sale transactions accurately, counted back currency and provided receipts to all customers

EDUCATION

App Academy - App Academy | Fall 2021

San Jose State University - B.S Economics Major & Business Minor | 2015 - 2021
